Professional Experience

Facility Support Manager, GBA Associates LP – DHHQ, Falls Church, VA **March 2025 – Present**

- Analyzed operational data across 21,000+ service records to identify inefficiencies and support audit readiness.
- Built Excel and Tableau tools to track labor hours, KPIs, and vendor performance metrics.
- Authored SOPs and compliance-focused documentation to standardize vendor coordination and reporting.
- Delivered executive-level dashboards and collaborated with technical teams to resolve service disruptions.

Pro Sales Associate, Lowe’s, Fairfax, VA **December 2022 – February 2025**

- Produced Excel-based inventory reports to assist in sales forecasting and planning.
- Supported data-driven improvements to stock management and vendor coordination.
- Collaborated with teams to streamline reporting on purchasing activity.
- Interpreted sales patterns to recommend process adjustments.

Project Experience

Work Order Business Efficiency Analysis **Spring 2025**

- Audited and analyzed over 21,000 records of service activity to identify delays and underperformance.
- Created Tableau dashboards summarizing service timelines, cost drivers, and vendor trends.
- Presented findings to stakeholders, highlighting workflow issues and potential savings.

User Behavior Segmentation – Cyclistic Bike Share **May 2025**

- Queried usage data using SQL and R to categorize rider types and uncover behavior patterns.
- Built Tableau visualizations to communicate findings to business leaders.
- Recommended service improvements based on ride frequency, duration, and seasonal shifts.

Workforce Trends & Layoff Risk Analysis **April 2025**

- Modeled staffing risk using SQL and Excel based on department workload and attrition trends.
- Developed dashboards for leadership showing risk concentration and department needs.
- Automated reports to assist leadership with long-term personnel and headcount planning.
